11	FALCON COMMUNICATIONS LIMITED (FALCON)	
12	Smiths Detection Watford Limited (SMITHS)	
13	MIKKELIN KEHITYSYHTIO MIKSEI OY (MIKSEI)	X
14	ENVIRONICS OY (EOY)	
15	ADS GROUP LIMITED LBG (ADS)	

Approved by the ENCIRCLE Management Board: UCL, BAES, WAT, UCSC, MIKSEI

Circulation list

- European Commission
- ENCIRCLE Consortium

This document is the summary of the status of the ENCIRCLE cluster first dynamic catalogue after 6 months of operational use (since June 2017).
The deliverable consists in the on-line catalogue operational "tool" and contents.

1   ENCIRCLE CATALOGUE FIRST VERSION ACCESS

The ENCIRCLE Dynamic Catalogue is a web portal with databases, networks, market place and different functions, that will support the project activity in an open, flexible and interactive manner.

The catalogue is accessible on-line at the following address: www.encircle.eu.
The home page is public.

To use the catalogue, under specific access conditions defined by the membership nature, it is necessary to register as a member of one of the ENCIRCLE communities.
The catalogue provides registration and support to the two ENCIRCLE communities: the Practitioners and Customers Community and the Technological and Industrial and Community which are the main users of the dynamic catalogue.

To be a "user" of the catalogue, an organisation or an expert must select the community it wishes to join and follow the registration procedure proposed for each community.

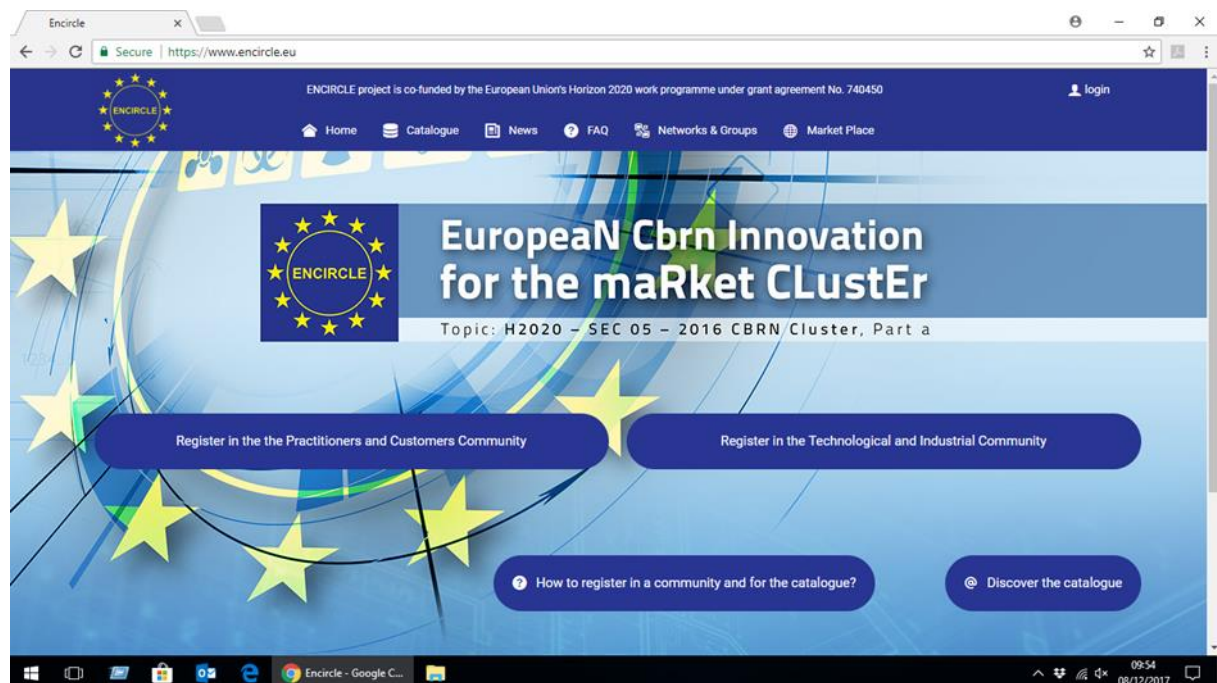

The registration requires the signature of a Letter of Intent to agree between the consortium and the catalogue user.

The Loi to be signed are sent automatically by the portal at the end of the registration request procedure. The LoIs are managed by each community leader from the consortium.
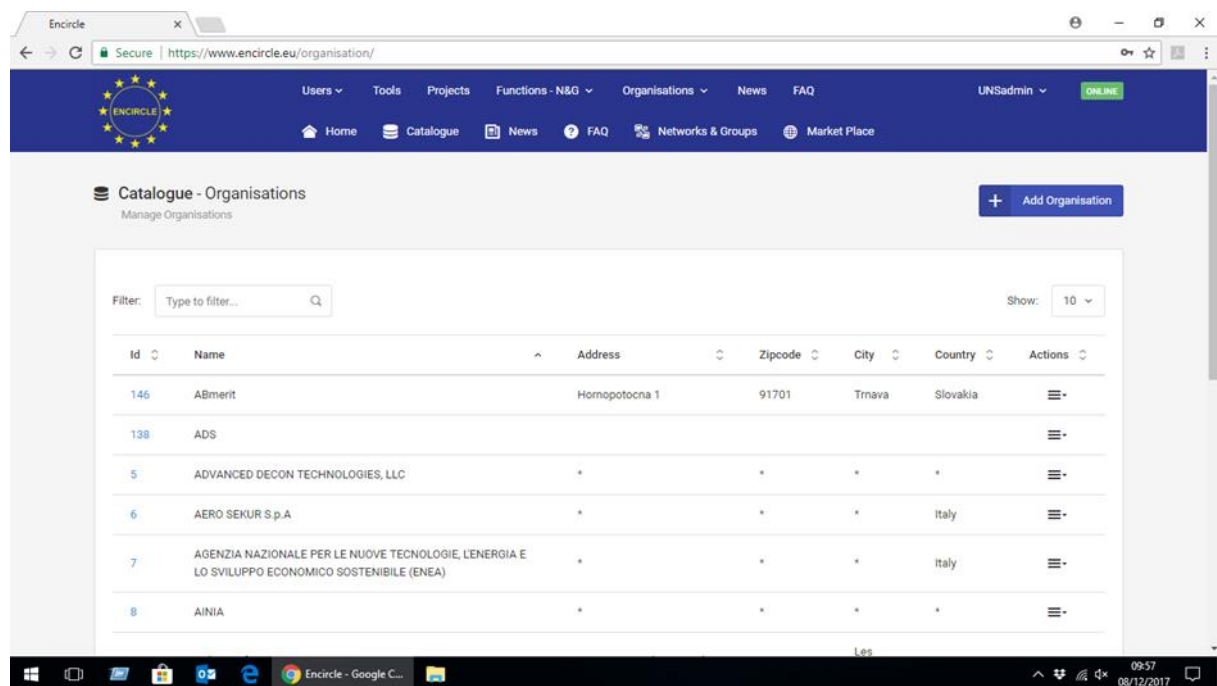

2   ENCIRCLE CATALOGUE MAIN CONTENT AT 9M

The catalogue contains non-classified information sorted out either by:
- functions and sub-functions
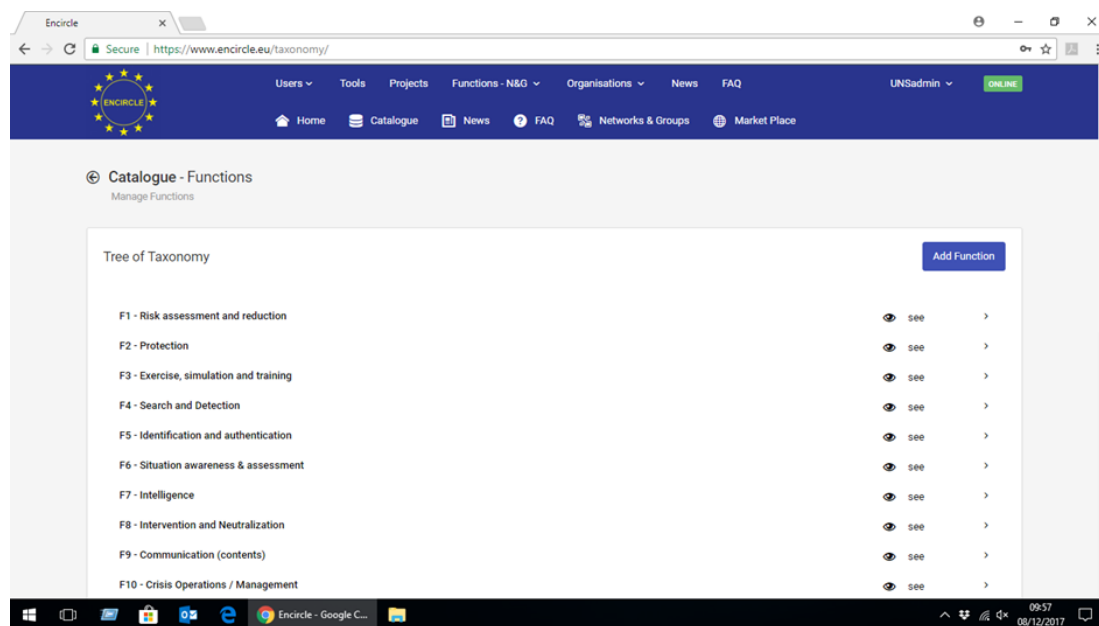

- by organisation:

- or by needs:

It includes:

- Relevant needs and gaps (unclassified and not confidential information).
  for instance:

- CBRN technologies and tools description, including generic, dual and related non-specific CBRN products and technologies, such as, for instance:

- a CBRN-related projects database.

It includes:
- standards and interfaces,
- social and environmental issues and descriptions

All the data included in the catalogue concerning organisations, point of contact, tools, including technical tools, procedures etc are under the responsibility of their owner (consortium partner when relevant and community members).

In particular, all the suppliers and SMEs registered in the EDEN Store (supplier platform and SME platform) that already accepted to communicate their information to be used in ENCIRCLE will join the new community with a new login and password.

Their EDEN Store registered data have already been transferred in the catalogue, ready for the suppliers to update them with recent information.

The main public deliverable of the dynamic catalogue is the portal itself, operational since mid-June 2017.

It currently includes the information provided by the EDEN partners, the suppliers and the SMEs that allowed the ENCIRCLE consortium to use their data, plus some additional needs and gaps identified and gathered in 2017:
- 345 Needs,
- 515 Gaps (CBRNe specific and related),
- 200 organisations,
- 240 points of contact,
- 310 Tool descriptions,
- 3 cooperating projects (more under discussions).
